

FYP Logbook Entry Sheet

Meeting No: 01

Date: 2021/11/14

Start Time: 14:40 P.M.

End Time: 14:55 P.M.

Items Discussed:

1. Use case diagram
2. Initial Entity Relational Diagram (ERD) of the system
3. Wireframe of the system

Achievements:

Creating use case diagram help to clear up the knowledge of how the system will be working. To build the system design research was carried out that help to build the wireframe design. Initial entity relation diagram was accomplished.

Problems:

I face problem while creating wireframe as the design was not fixed and took some time to do search and while making Entity relation diagram shows the relation between the entities was sort of challenging.

Tasks for Next Meeting:

1. Introduction part of Interim report.
2. Start Development part. (Home page)
3. Some part of SRS.
